

## MISSION

Global supplier of engineered systems and services that improve operational efficiencies, expand plant capacity, and reduce pollution emissions.

## VISION

To be the preferred partner in achieving sustainability goals utilizing environmentally conscious solutions.

The LDX Solutions' team designs engineered systems, under the Dustex® and Geoenergy® brands, that control Particulate Matter, Heavy Metals, non-condensable & acid gases, VOCs (Volatile Organic Compound), and HAPs (Hazardous Air Pollutants). Here are some of our engineered solutions:

### Dustex®

- Circulating Dry Scrubber (CDS)
- Activated Carbon Injection (ACI) System
- Dry Sorbent Injection (DSI) System
- SCR / SNCR
- Air-to-Air Heat Exchanger
- Fabric Filter / Baghouse
- Cyclone & Multi-Clone

### Geoenergy®

- GeoTherm® II RTO
- GeoCat® II RCO
- E-Tube® Wet ESP
- Wet and Venturi Scrubbers

The LDX Solutions' team builds engineered systems, Lundberg® brand products, serving industries that need waste gas collection and treatment, process condensate handling, evaporation, energy savings and chemical processing. Below are some of our engineered solutions:

### Lundberg®

- NCG collection and treatment
- Condensate stripping/methanol recovery
- Multiple effect Evaporation using tubular or lamella technologies
- Energy savings as a result of Blow Heat, TMP and Digester heat recovery
- Chemical processing including Sulfur burners, Soap recovery and Liquor Oxidation
